Executive Summary

George Skokos brings over 35 years of professional work experience in computer systems to the table. With a diverse skill set covering computer operations, programming, documentation, and project management, he has proven himself time and again. Notably, Mr. Skokos served as the Director of Information Management Systems at Timestep Corp, where he successfully delivered a Due Diligence report to Newbridge Corp, leading to the acquisition of Timestep. Recognizing his expertise, Newbridge offered him a generous contract to oversee the smooth transition of Timestep's computer operations to align with their own. Trust George Skokos to expertly handle your computer systems needs.

In his spare time, George researches Open Source technologies and builds his home lab.

Work Experience

Systems Developer	**May 2024 to August 2024**

ND Consulting

Systems Developer with the WordPress content management system (CMS). Responsible for designing, creating, and maintaining WordPress websites and associated hosting infrastructure.

Tasks include plugin and theme maintenance, security implementation, and performance optimization. Work with languages such as JavaScript, PHP, CSS, and HTML, front-end and backend development. AWS infrastructure management and operation including Virtual Machines and Route53 DNS. Built a VoIP system with an AI Receptionist.
