To Whom It May Concern

George Skokos has been employed as a consultant with the Directorate of Communications and Electronics Support (DCES) from the 30 November 1994 to 31 March 1995 as a Technology Analyst. He was contracted specifically to plan and implement the Norton Administrator for Networks for over 500 users across 8 network segments. In addition, he installed the Gartner Research CD-ROM application and provided complete documentation on all tasks. Although his full range of skills were not required, they proved to be a valuable asset when called upon.

George has satisfied our needs to our complete satisfaction and I would not hesitate to recommend him.

Sincerely,

Mr. Don Bunes
DCES 3-3 DGCEEM NETWORK MANAGER
